

Information about the Service

Service Description

TPG's NBN FTTN XL Bundle service is delivered via the National Broadband Network (NBN) to the network boundary point of your premises.

TPG NBN FTTN XL Bundle includes the following components:

- NBN Broadband using the Fibre to the Node network
- Digital Voice Service:
 - o Unlimited Local Calls – Excl. 13/1300 Calls
 - o Unlimited Standard National Calls to Landlines
 - o 100 International Minutes per month

The service is a pre-paid service and bills are not issued. A minimum \$20 prepayment is required at registration. As you use the service for calls outside the included value, the prepayment will be automatically topped up when the prepayment falls to a specified dollar amount.

Availability

The NBN FTTN XL Bundle is available at selected coverage areas and subject to infrastructure availability at customer's premises. To check for availability, please use the address checker at www.tpg.com.au/nbn-fttn/coverage

Bundling Arrangements

Once an NBN FTTN Bundle is purchased:

- Change of plan option is restricted to TPG NBN FTTN Bundle plans only and you cannot move back to a TPG ADSL2+/ADSL service
- You cannot separately cancel either component (NBN Broadband or Digital voice). Cancellation will cease both services

NBN Speeds

Actual throughput speeds may be slower and could vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. The Boost speed option has

a download connection speed which will range between 18Mbps and 25Mbps, and an upload connection speed which will range between 1Mbps and 5Mbps. For FTTN and FTTC customers, we will inform you of your maximum line sync speed once available. If you are on a higher speed NBN plan, you have the option to downgrade to a lower speed plan without any penalties.

Equipment Required

If you do not already have the required NBN infrastructure installed at your premises, you or an authorised person over 18 years of age will be required to be home on the day of installation for a technician visit. If we find that you will require a technician visit to perform the installation, we will advise you of the date and time after registration.

You need an NBN compatible modem to connect your devices to TPG NBN FTTN Broadband service. A Wi-Fi modem router is included in the NBN FTTN XL Bundle.

Minimum Term

The NBN FTTN XL Bundle plan is supplied on an 18 month contract term. See Minimum Total Cost applicable to each plan in the Information about Pricing section.

Inclusions & Exclusions

Digital Voice Included Calls: The NBN FTTN XL Bundle allows you to make unlimited Local Calls and unlimited Standard National Calls to Landlines, excluding 13/1300 Calls. Calls to 19/1900 numbers are not supported. The 100 International Minutes per month included in bundle can be used to call International Landline and Mobile destinations (excluding calls to satellite phones) listed on our [International Call Rates](#) page. Standard per minute rates listed on our [International Call Rates](#) page apply after the first 100 minutes of International Calls and for calls to satellite phones. Unused included minutes for international calls expire at the end of each month. Charges for calls made that are not included in the bundle (e.g. calls to 13/1300, AU Mobile numbers and Directory Services) will be charged at [listed TPG rates](#) by deducting usage charges from your Digital Voice Prepayment Outside Included Value. The service is for residential consumers only and may not be used for commercial purposes

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).
