

## Information about the Service

### Service Description

TPG's NBN Broadband with Home Phone service is delivered via the National Broadband Network (NBN) to the network boundary point of your premises.

TPG NBN Broadband Extra Bundle 100/40 includes the following components:

- NBN Broadband
- Home Phone Line Rental
- Extra Bundle
  - Unlimited Local Calls – Incl. 13/1300 Numbers
  - Unlimited Standard National Calls to Landlines
  - 100 International Minutes Per Month

The Service is a pre-paid service and bills are not issued. Prepayment is by automatic top-up.

### Availability

Only available in selected coverage areas. To check for availability, please use the address checker at [www.tpg.com.au/nbn/coverage](http://www.tpg.com.au/nbn/coverage).

### Equipment Required

If you do not already have the required NBN equipment installed inside your home, you or an authorised person over 18 years of age will be required to be home on the day of installation for a technician visit. If we find that you will require a technician visit to perform the installation, we will advise you of the date and time after registration. You need an NBN compatible router to connect your devices to TPG NBN Broadband service. A Wi-Fi router is included in the NBN Broadband Extra Bundle 100/40.

### Minimum Term

The service comes with no lock-in contract. Customers are permitted to terminate the service by giving 30 days notice.

### Bundling Arrangements

Once an NBN Broadband Bundle is purchased:

- Change of plan option is restricted to TPG NBN Broadband with Home Phone plans only.
- You cannot cancel either component (NBN Broadband or Home Phone). Cancellation will cease both services.

### NBN Speeds

Actual throughput speeds may be slower and could vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable.

### Inclusions & Exclusions

**Extra Bundle:** NBN Broadband Extra Bundle 100/40 gives you the right to make unlimited Local Calls (includes 13/1300 numbers) and unlimited Standard National Calls to Landlines. Charges for calls made that are not included in NBN Broadband Extra Bundle 100/40 will be deducted from your Home Phone Prepayment Outside Included Value. Calls to 19/1900 numbers are not supported. 100 International Minutes per month included in the NBN Broadband Extra Bundle 100/40 can be used to call International Landline & Mobile destinations (excluding calls to satellite phones) listed on our [International Call Rates](#) page. Standard per minute rates listed on our [International Call Rates](#) page apply after the first 100 minutes of International Calls and for calls to satellite phones. Unused included minutes for international calls expire at the end of each month. The service is for residential consumers only and may not be used for commercial purposes.

**CSG Waiver:** The Home Phone monthly and setup pricing stated in the Information about Pricing section is based on customers agreeing to waive the Customer Service Guarantee (CSG).

### Backup Power Service

Our service includes, at no additional charge, the supply of a backup battery unit. The backup battery unit will keep some elements of your telephone service going if there is a power outage at your premises. This backup battery unit will keep power going to your NBN Network Termination Device but it will not supply power to either your handset or your Internet router. This means if you have a telephone handset that does not require power and that handset is plugged into the UNI-V port on your NBN NTD, then if there is a power outage you will be able to make and receive telephone calls (including calls to emergency services) for an estimated period of time of about 5 hours.

However, if 1) You remove the battery backup unit, or 2) The unit is faulty or the battery is not replaced after the battery gets low on power, or 3) You have a telephone handset that needs power to function (e.g. wireless handset); then during a power outage, you will not be able to make or receive any calls, including calls to emergency services.
